

*Ceremonies with Heart
that Strengthen Love and Commitment*

Blessed Weddings

Weddings

The most memorable day of your life brings old and new friends, family and relatives together to celebrate your marriage. A creative wedding ceremony honors your own sacred and honored traditions.

Our goal is to provide a personal, uplifting and powerful ceremony that makes a real difference in the depth, commitment and joy of the loving couple. We seek to create a harmonious and wonderful experience for all.

The Ceremony

Minister Onye Onyemaechi performs traditional or innovative wedding ceremonies co-created according to the needs of the marrying couple. The ceremony he most often celebrates is described as spiritual and not necessarily traditionally religious, although it is inspiring, uplifting, and joyous.

Choose from:

- Christian Traditions
- African Traditions
- Spiritual, Non-Traditional
- Renewal of Vows Ceremony
- Commitment Ceremony

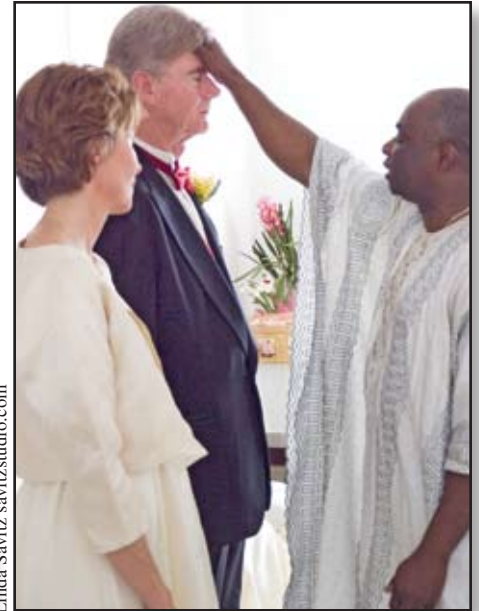

Minister

Onye Onyemaechi was raised in the African Christian tradition and his views are inclusive and respectful of world religions. He is a minister and spiritual advisor for individuals, business executives, professionals and organizations. Onye is the founder of Ancient Ministries Center for Healing and Miracles in northern California.

Counseling

In preparation for a joyous marriage, pre-nuptial counseling may increase your sense of commitment and devotion to one another. Topics may include extended family relationships, finances, family values, resolution and negotiation, honoring each other's innermost needs and desires, open, compassionate, and discerning communication, etc.

Home Blessing

A home blessing is an ancient sacred practice intended to cleanse physical and spiritual space, affecting health, abundance and lifestyle. It transforms the living space and creates a wonderful atmosphere of holiness, peace, and tranquility for your family, pets, and visitors.

"On our wedding we felt that Onye created an energetic field of high and sacred vibrations and he brought everyone into this sacred space. People said that they had never experienced such a wedding ceremony. They felt the urge to think about their own relationships and the true love in them. After the ceremony, during our honeymoon, we could feel the power of the blessing of the marriage and our love grew much deeper. Thank you, Onye!" Aglaia and George
